

Role Title: Regional Manager – Southern

Meat Inspectors is the leading independent meat inspection service in Australia.

Strong growth has led to the creation of a role for a Regional Manager in our southern territory incorporating sites in Victoria, NSW and South Australia.

The role will be based in Melbourne and will involve regular travel to conduct site visits throughout the southern region.

We recognise that our business is only as good as the meat inspectors we employ. As such we are committed to creating a culture where we look after our people and create opportunities for development and career progression.

ABOUT THE ROLE

The Regional Manager role is essentially an account management role. You will be responsible for overseeing the meat inspection teams in your accounts.

Specifically, this involves:

- Implementing the account management plan for each site to ensure we are offering a premium service and delighting our clients
- Coaching and developing the leading hands and AAO's in your region
- Onboarding new client sites
- Contributing, as a senior leader, to discussions around the growth and improvement of the Meat Inspectors business across Australia

THE OPPORTUNITY

This role will appeal to someone who has a solid background as an AAO and ideally, has experience in managing teams as a leading hand or in some other relevant role.

This is your chance to take the next step in your career.

Previous experience as an account manager is not essential. Success in this role will come primarily from your willingness to go the extra mile to service and delight our clients. A willingness to learn and grow are the key attributes we look for.

If you have experience as an AAO or Vet, possess the right attitude, a commitment to learning and a good work ethic, we can teach you the rest.
