

## **Operations Managers wanted to manage our Regional Livestock Exchange Saleyards**

AAM Investment Group structures, operates and manages investments across agriculture, rural and commercial property and regionally based infrastructure with a focus on improved investment performance through operational and technological efficiencies, and enhanced asset management.

We have a few exciting career opportunities for experienced Operations Managers at our RLX saleyards across NSW and Victoria. We are looking for a motivated individual to join our team to manage the day to day operations of the Livestock Exchange (LX) facilities.

We are seeking agile and experienced leaders with great coaching & mentoring skills to manage the performance, operations & superior team safety & animal welfare of our Livestock Exchange (LX) facilities. Building strong relationships with our customers & the community is also a key aspect of the role.

Key responsibilities include:

- Provide leadership, development and coaching to a team of staff to meet performance objectives and KPIs
- Oversee, lead and manage business and facility operations to deliver a comprehensive range of services
- Oversee and manage sale day activities ensuring the efficient throughput of livestock, monitor and measure sale day financial outcomes
- Measure and monitor the efficient throughput of livestock, related to sale day and non-sale day activities
- Oversee and manage site operational compliance requirements in relation to WH&S, relevant legislation, licencing and codes of practice, to meet and exceed organisational expectations
- Measure and monitor operational and capital expenditure in accordance to approved budgets
- Develop comprehensive business performance, compliance and financial reports
- Promote the regional economic value of LX facilities through active community engagement
- Work with internal and external stakeholders and contribute to the timely delivery of capital projects

To be successful in this position you will possess:

- Recognised qualifications in business or agricultural related field or equivalent experience
- 5+ years of experience leading & developing high performing teams
- Demonstrated ability to develop & maintain strategic relationships
- Proven commercial acumen & drive to maximise value in business management with the ability to organise & manage conflicting work priorities
- Solid grounding & appreciation of the concepts, principles & practical applications of business operations
- Strong computer skills and proficient in the use of Microsoft suite

This is a genuine opportunity for a dynamic, business minded manager who is passionate about the industry, to fill a key role within our operational management team. If you are up for the challenge, we would love to hear from you!

Please apply by sending your resume and a cover letter outlining your reasons for applying to [hr@aamig.com.au](mailto:hr@aamig.com.au).
