

Manager – Cattle Processing

Rangers Valley is one of the world's most respected beef producers. Supplying both Wagyu and Angus brands to discerning customers all over the world. Rangers Valley currently has a full time position available for a Cattle Processing Manager

This is a unique opportunity to be part of a premium beef business with a strong continuing growth strategy.

Reporting to the Manager – Feedlot and External Cattle Operations, this position will be an integral part within the Rangers Valley team and will have key responsibilities that include but not limited to;

- Manage the cattle processing function, cattle movements, and applicable operators.
- Assist in the management of livestock data system and records.
- Drive a safety first culture whilst ensuring compliance with company and legislative WHS requirements.
- Nurturing and developing effective internal and external stakeholder relationships to achieve business objectives.
- Coaching mentoring and development of staff.
- Provide knowledge and support to other departmental managers and Senior Leadership Team.
- Prioritise and manage maintenance and repairs.
- Overseeing livestock data system management.
- Drive best practice methods for animal welfare and environmental practices.

To be successful in this role you will ideally have the following skills and attributes;

- Operational supervisory experience in the cattle processing function within a feedlot environment.
- Practical understanding of WHS requirements.
- Practical understanding of animal welfare, compliance, and quality in a feedlot environment.
- Ability to lead, manage and mentor a team.
- Strong computer literacy and experience with livestock data systems.
- Highly developed problem solving and decision making skills.
- Strong interpersonal skills that allow you to interact and communicate with a range of stakeholders.
- Excellent oral and written communication skills
-

Desirable attributes for this position are;

- Understanding and experience in a vertically integrated beef supply chain from the feedlot side of a business.
- Management or supervisory experience in more than one operational department within a feedlot.
- Tertiary qualifications in agriculture or animal science.

You will also bring a good attitude and willingness to learn that gives you the ability to work as part of a team as well as autonomously when needed. Also required are excellent organisational and communication skills, coupled with a willingness to integrate with, and add to, the current Rangers Valley business and culture.

An attractive remuneration package based on skills and qualifications is available to the successful applicant.
