

A future in the Beef Cattle industry exists for a suitably qualified and experienced person as a leading hand/operations in a commercial Droughtmaster breeding, backgrounding, feeding, feedlot and farm operation in the south-east Burnett.

**Key responsibilities include but not limited to**

**Livestock operations**

- low stress cattle handling
- mustering coastal range country on horses
- processing, treatments, classing
- recording and reporting
- feedlot and feeding management

**Electronic communication and record keeping**

**Water infrastructure and maintenance**

**Farming operations**

**Maintenance and construction of property infrastructure**

**Use and maintenance of farming plant, machinery, vehicles and equipment**

A very attractive long-term opportunity for the successful applicant, with opportunity for performance production and profitability incentives.

Smoke free and dog free operation.

**Please send an expression of interest, short form resume and self-description to**
