

General Manager – Meat Processing

- Complete commercial oversight and control
- Large corporate entity
- Very well-established operation

THE COMPANY

Our client is one of Australia's largest meat processing and marketing companies with multiple sites across the country. They have a long-term presence in the Australian market and play a key role in the national supply chain.

THE ROLE

The General Manager is responsible for the overall financial and strategic management of the site, taking into account the day-to-day operations of the business including all staff, planning, leadership and performance.

This role is responsible for the development, implementation and execution of business plans that deliver commercial results and operate within the required cost controls. It is responsible for forecasting, sales planning, and reporting as well as ensuring that the business' long-term goals and priorities are met.

The need for strong leadership and oversight of all recruitment, training and development will be critical to the culture and performance of the business. An open and transparent approach to engaging with all staff and the management team is essential.

The position plays a key role in engaging with producers, suppliers, government and the wider industry, as such there is a need for highly developed communication and stakeholder management that ensure the business and the group's progressive and trusted reputation is further promoted.

THE REQUIREMENTS

The successful applicant will need to meet the following requirements:

- Extensive experience in the agriculture industry and beef/livestock supply chain sectors;
- Tertiary qualifications in Agriculture, Business or related field;
- Excellent financial literacy, financial management and human resource management skills;
- Extensive knowledge of strategic planning and leadership;
- Exceptional aptitude for verbal and written communication, presentation and staff relationship development;
- Strong project management and problem-solving skills;
- Ability to build strong relationships and partnerships with government officials and industry partners.

LOCATION AND REMUNERATION

The plant is situated in Northern QLD. A competitive remuneration package, commensurate with experience, is on offer for the successful candidate.
