

Diesel Mechanic – Ag Machinery

Our Client

Our client is a leading provider of new and used agricultural machinery and equipment to the rural sector in Central Victoria. This group has been highly successful and has grown rapidly, and provides sales and services including maintenance, repair services and a range of precision agricultural technology solutions. Due to continual expansion the business now requires a number of diesel mechanics and technicians.

Role

The company requires a Maintenance & Diesel Mechanic to be part of a dedicated farm maintenance team to service, repair and maintain a range of agricultural equipment and machinery. You will be working on high technology tractors, harvesters and seeders and a range of other farm machinery. If you enjoy never being bored and being out in the field working on a diverse range of equipment and machinery, this is a great role for you.

Requirements

This role requires the following:

- Diesel fitter and agricultural mechanical technology certificate qualifications are highly preferred
- Sound knowledge of mechanical, electrical and hydraulic systems
- A background and experience at working in agricultural machinery repair and servicing
- Good diagnostic skills, able to spot problems and fix them effectively
- Experience in welding and fabrication would be advantageous
- A good communicator, high reliability and well organised
- A person who enjoys being part of a team, able to work without supervision

Remuneration and Location

Well above average wages are available for skilled candidates, with significant overtime work available plus the provision of a fully serviced ute that can be used for reasonable private use. The role is located at Ballarat in Central Victoria, which is less than one and half hours by car from the city of Melbourne. For skilled candidates wishing to relocate from interstate the company will provide relocation assistance.

To Apply

Please apply online. Contact Dr. Ray Johnson, Senior Agribusiness Consultant and Managing Director, Agricultural Appointments by phone 0419012841 or email ray@agri.com.au for a confidential discussion on the role if required.
