

FARM OVERSEERS & FARM HANDS

Western Australia

Stone Axe Pastoral Company is a producer of Wagyu Cattle which has operations across Australia. We are currently looking for proactive and driven people with a passion to be part of a successful integrated premium beef farming operation and join the team in our WA aggregations.

The **Farm Overseers** main duties will include, but not be limited to:

- Coordinate and oversee the daily workload
- Oversee the cattle husbandry including feeding, yard work, animal health management including health and artificial breeding treatments
- Bio-security and quarantine levels kept at a high level
- Oversee and train (if necessary) in the operation of farm machinery including light vehicles, tractors and telehandler
- Oversee the maintenance of and basic servicing of farm plant and equipment
- Oversee general farm care and maintenance
- Infrastructure development, improvement and maintenance of existing infrastructure to support an intensive cattle breeding operation

The **Farm Hands** main duties will include, but not be limited to:

- Cattle husbandry including feeding, monitoring of breeder calving
- Cattle work and yard work
- Operation of farm machinery including light vehicles, tractors and telehandler
- Maintenance of and basic servicing of farm plant and equipment
- Fencing and water trough maintenance
- General farm care and maintenance

The successful candidates for the Overseer role will ideally have previous cattle handling and husbandry experience. Experience in artificial breeding in cattle would also be highly advantageous.

These roles are full-time, and you will be required to work when necessary including weekends as required.

An attractive annual salary is on offer as well as the additional benefit of on-farm accommodation and utilities whilst employed by Stone Axe.

To **apply** for one of these roles -

Please send your resume to Human Resources via email to deannem@stoneaxepastoral.com.au

clearly stating which position you wish to be considered for.
