

Australian Cattle Enterprises

Queensland Operations Coordinator

- Global livestock trading business
- Dynamic high performing team
- Townsville based

Australian Cattle Enterprise

Australian Cattle Enterprise (ACE) is a livestock business which focuses on strong customer relationships and consistent supply of high-quality animals and animal welfare into global markets.

The Role

ACE is building its operations team into Townsville and areas of focus for the Operations Coordinator will be:

- Loading of livestock vessels
- Livestock management and procurement:
 - For live export shipments and for lotfeeding or agistment;
 - Ensuring all livestock purchased meets required specifications;
- Ensuring compliance with all export protocols and government regulations;
- Attendance of discharge operations in overseas ports where possible

The Person

Qualifications in business management and export processes would be considered favourably but are not essential. Previous involvement and experience with livestock is mandatory.

This role will suit someone with experience in the livestock industry and who is motivated by the opportunity to work in a high pressure but rewarding role. The ability to think on your feet and a keen eye for detail will be critical in this fast-paced environment.

Good communication skills and the ability to build strong relationships will be key to your success in this environment where you are working with cattle producers, livestock agents, logistics providers, overseas customers, and shipping companies.

This is a great opportunity to join a dedicated team passionate about livestock and animal welfare.

Application

Apply now for this unique opportunity or for more information please contact Patrick Underwood, Managing Director on email: patrick@acecattle.com.au

| Applications close on the 24th of March 2021.
