

RURAL OPERATIONS MANAGER

COMMERCIAL DROUGHTMASTER BEEF BREEDING, FEEDLOT AND FARM OPERATION

We are a Droughtmaster beef breeding and finishing operation in the coastal ranges of the south-east Burnett region of Queensland. Running approx. 1000 Droughtmaster cows spread over three properties, we produce high quality MSA finished beef with specific emphasis on low-stress, environmentally sustainable production.

This is an opportunity for an enthusiastic, dedicated and self-motivated person/s (consideration given to a couple) to independently undertake all aspects of rural operations. A very attractive long-term package will be offered, with opportunity for performance production and profitability incentives.

Skills and experience required include:

- ☐ highly motivated, able to show initiative and responsibility.
- ☐ excellent time management and organisational skills
- ☐ engaging and calm personality
- ☐ rural operations experience, with emphasis on Droughtmaster cattle, breeding, production and genetics
- ☐ good intellect, considered thinking and problem solving skills
- ☐ good interpersonal skills - can work independently or as part of a team
- ☐ excellence in communication and record keeping
- ☐ clean, tidy and well organised work place habits
- ☐ long-term career development
- ☐ enthusiasm to learn and further develop skills and abilities
- ☐ keen observation skills
- ☐ organised, preplanning of activities and projects

This is a smoke free and dog free work environment
