

Cropping Operations Manager

Benefits

- Relocation assistance on offer for the successful applicant.
- On site accommodation with meals, mobile phone, and vehicle provided.
- Opportunity to build your own team and business from the ground up.

About the role

Due to significant growth we are seeking a Cropping Operations Manager who will be responsible for the oversight and management of all farming activities across our properties in the Northern Territory.

Key responsibilities include:

- Manage crops and pastures, maximising water use efficiency.
- Development of land for dryland irrigated farming.
- Operational, maintenance and budgetary accountability for all farming activities.
- Contractor management.
- Developing operational business plans for the site.
- Developing farming budgets, P&L's and enterprise performance reporting.

Ideally the successful candidate will have:

- Qualifications in business/agricultural related field or equivalent experience.
- Sound understanding of agronomic practices.
- Project management experience.
- Previous experience in crop/pasture production.
- Experience operating and maintaining farming equipment.

Who we are

AAM Investment Group is an Australian owned and operated business and manages a range of agricultural assets across Australia. Assets include livestock exchange facilities, beef pastoral operations, mixed livestock and cropping operations, poultry farm operations and timber production facilities.
