

Graduate/Trainee Nutritionist

Our Client

Our client is a leading manufacturer and marketer of premium quality animal nutrition products and solutions. The company encourages a collaborative team environment, providing customers with nutrition solutions in the manufacture and supply of quality vitamin and mineral premixes, feed additives, feed ingredients and raw materials. The business is Australian owned and has operations both in Australia and internationally.

The Role

A vacancy has arisen for a **Graduate Nutritionist** reporting to the Technical Manager, to formulate commercially viable vitamin and mineral premixes in a timely, accurate and safe manner. This position will equally suit a recent graduate with a passion for livestock and/or animal nutrition who will have the opportunity to learn from a team of experienced nutritionists.

Responsibilities

- Formulate commercially viable vitamin and mineral premixes in a timely, accurate and safe manner
- Provide accurate and timely technical support on animal nutrition to consultants, the sales team and customers
- Effectively utilize in-house software to develop and document formulations and associated information for the production on premixes
- Ensure formulation data is stored correctly and securely as per the company record and document management standards
- Assist with information for the purchase of raw materials
- Assist with formula implementation into production including ingredients and packaging materials.
- Respond to technical enquiries regarding manufacturing.
- Respond promptly and professionally to incoming technical inquiries

Requirements

- Tertiary qualified in Animal Science/Agriculture/Vet with Animal nutrition specialization
- Worked in the Animal Nutrition industry for a minimum of 2 years or has had work experience
- High level of computer skills – ability to navigate and operate ERM and Format
- Commercially orientated – understands for-profit mentality
- Capability and desire to formulate across all animal production sectors
- High level of communication skills – Written and Verbal
- Customer Focused – both Externally and Internally
- Experience in prioritizing workloads in order to meet organizational demands
- Very strong attention to detail

Location and Remuneration

The role is based at the main manufacturing plant and Head Office in South-West Brisbane. Our client is prepared to negotiate a highly competitive remuneration package to attract the right candidate to this role.
