

Eenaweena Manager

A career position is available at one of Australia's leading merino studs, to manage "Eenaweena", Egelabra's Ram Depot, situated 35km west of Warren.

In consultation with the General Manager, the Eenaweena Manager will be directly responsible for the management of a large merino operation with a focus on stud stock, recording & data analysis, commercial cattle, oat rotation, liaising with clients and supervising staff.

Key Responsibilities:

- * The management of a large merino breeding operation
- * Stud data collection for analysis by the stud geneticist
- * Mentoring & training young staff
- * Preparation of stud sale stock
- * Pasture & Crop management
- * Liaise with Stud classer & sheep geneticist
- * Implementing safe work practices

Essential Skills:

- * Previous management experience
- * Sound communication
- * Ambition to be a leader in livestock production
- * Attention to detail with excellent time management skills
- * Ability to provide a stimulating work environment

Remuneration:

House, vehicle & salary to be negotiated with suitable applicant with the opportunity for advancement and growth within the company. Additionally H E Kater and Son provide the necessary training and support to this position to ensure the desired outcomes

This is a great opportunity to live within the strong community of the Macquaire valley, joining a team of 18 full time employees, to be part of a well-regarded family-owned pastoral company established in 1879, that continues to raise the bar in production.
