

Intensive Feeding Manager | Warwick Qld

Hancock Agriculture is a vertically integrated Wagyu beef company, currently looking to fill an Intensive Feeding Manager role at its Maydan feeding facility situated in the Southern Downs Region in Queensland. The property also incorporates a small area of irrigated and dry cropping for silage production and grazing of backgrounders.

This is an exciting opportunity for a highly motivated person to manage a feeding facility and property in a large organisation. We are seeking someone to help develop and drive a company culture of teamwork where we care for our people, our cattle and our farms as we work together to produce high quality Wagyu beef.

Applicants must have experience in animal welfare practises, a QA focus, a strong work ethic, leadership talents, a commitment to teamwork, a strong aptitude for forward planning, a high level of communication skills, and demonstrated experience in long fed production.

An attractive remuneration package will be negotiated with the successful applicant for this important position within Hancock Agriculture.

To apply for this special job experience, please email your current resume with referees to careers@hancockagriculture.com.au quoting **FB-MAY-FM-2021**

For more details on the role –
contact Lachlan via careers@hancockagriculture.com.au or on (08) 8334 7116

Please note: You must have the right to live and work in Australia to apply for positions with Hancock Agriculture or S. Kidman & Co.
