- Assist the Plant Engineer and Maintenance Manager with capital, engineering and environmental projects
- Assist Maintenance Manager with management and delivery of maintenance systems and services
- Provide leadership and support to the management and staff on site
- Actively assist with implementing all company policies, procedures, and safe work instructions to ensure compliance with legislative responsibilities
- Assist with implementing the company Occupational Health and Safety Management system within the electrical work areas
- Ensure the proper and effective use of available resources, including equipment and people

Ideally you have

- Trade qualification in Electro technology or equivalent
- Required state licenses
- Relevant drivers licenses
- Current first aid and CPR certificate (essential)
- Current Low Voltage Rescue training (essential)
- Working at Height, High Risk License for Elevated Work Platform (WP) (preferred)
- Completed Electrical Equipment in Hazardous Area course (preferred)
- At least 5 years' experience working in a Commercial / Industrial environment
- Previous experience providing maintenance services
- Previous experience working in an electrician position involving large volumes of assets and programmed servicing schedules
- High level of understanding and commitment to OH&S

If this is an opportunity you believe suited to your experience, you enjoy working in a harmonious workplace with ever-changing challenges and where no two days are the same, we would love to hear from you.
