- Operating farm machinery, including but not limited to tasks associated with spraying, paddock preparation, planting, spreading, cartage and harvest
- Observing and monitoring crop health / progress and communicating with General Manager
- Assisting with the development of farm / group culture in line with company values
- Demonstrate personal safety commitment and actively support a culture of safety awareness and commitment

### Ideally you have:

- Minimum of 2 years in a similar role
- Previous experience in managing irrigated and dryland growing activities
- Adept in managing farm technology and reporting
- Strong communications skills
- Current chemical users' certificate, driver and truck licences preferred but not necessary
- Your own transport and current Manual Drivers' Licence
- Ability to pass a pre-employment medical and are Q-Fever vaccinated (or willing to obtain)

### What we have on offer:

- Permanent fulltime position with overtime available
- Attractive remuneration package
- Training, development and potential for career growth are features of this position
