

Yarranbrook Farms is one of Queensland's largest custom lot feeders, close to the township of Inglewood in Southern Queensland. Yarranbrook has earned its reputation for feeding and finishing excellence. Its operating hallmarks of personal customer service, quality, and consistency in providing custom feeding services, enables cattle given to our care to be finished and delivered to market requirements. We have a feed team focused on quality and precision feeding, and a livestock team who believe the welfare of our cattle is paramount.

We are seeking staff to fill several roles currently available at the feedlot, across office, livestock, milling and feeding and environmental maintenance. We are looking for staff who are committed to animal welfare, reliable and honest, with a strong work ethic. This is a fast paced, physically demanding industry. These roles require the ability to work to tight timelines, embrace last minute changes to schedules, pitch in when necessary and still have a smile on your face.

Previous feedlot experience, or strong skills in a related area, would be advantageous.

These roles are permanent, full-time and may suit couples or singles. We work on an 11/3 roster and expect you to be flexible in your availability to meet business needs.

There is some accommodation available on site as well as in the surrounding district.

As an equal opportunity employer, and supporter of diversity in the workplace, we welcome all candidates to apply. We are interviewing immediately for these roles. If this is the opportunity you have been waiting for, please send your resume, with a cover letter, to Gino De Stefani – gino.destefani@yarranbrook.com.au
