

## **CHIEF EXECUTIVE OFFICER**

Inventia Genetic Technologies Pty Ltd (IGT) is a Brisbane based company specialising in the provision of bovine IVF services to beef producers throughout Australia. IGT is in fact Australia's market leader in this cutting edge field of genetic improvement and is among the top 5 bovine IVF companies in the world, in terms of embryo success rate. We envisage significant, sustained growth for the Company in both the domestic and export markets, along with the development to fruition of a number of exciting R&D projects. The CEO will report to the chair of the shareholder group and have responsibility for all aspects of the day to day operations of IGT, its financial control and governance. Communication skills and the ability to develop a cohesive and productive team are key.

### **The Company:**

Inventia Genetic Technologies Pty Ltd

- is Australia's leading provider of bovine IVF services to beef producers.
- is based in Brisbane where it has a world class IVF laboratory with field specialists travelling to all parts of Australia.
- is a small company, employing around 18 specialists ( FTE)
- envisages significant, sustained growth in both the domestic and export markets.

### **The Position:**

IGT is currently run by a devoted group of shareholders.

The CEO would:

- report to the chair of the shareholder group.
- be responsible for developing a cohesive, productive team, which builds on the strengths of the various specialists currently employed by the company
- oversee all the operations and business activities of IGT, to ensure optimal productivity and consistency with the overall strategy and mission of the company
- develop, and ensure compliance with, IGT's internal policies and procedures, to ensure organisational efficiency and fair and consistent decision making
- ensure that IGT remains in full compliance with its legal and ethical obligations in the conduct of its business
- review financial and other reports on the company's business and operations, to devise creative solutions to problems and/or possible improvements in performance
- build strategic and personal relationships in the industry and develop and maintain a deep knowledge of the commercial environment in which IGT operates.

### **The candidate would:**

- have proven experience at the CEO or other senior managerial level
- be able to demonstrate experience in leading a team through organisational change and growth
- have a track record in team building and the development of a strong company culture
- possess a good understanding of corporate finance and performance management principles
- have in - depth knowledge of corporate governance and general management best practices
- possess an entrepreneurial mindset with outstanding organisational and leadership skills

- be an excellent communicator, with a strong work ethic.

This is an exciting opportunity for the right candidate to lead and grow a world class biotech company, with an established domestic market and enormous potential to expand both here and internationally.
