

Station Manager – Dunbar Station (Couple)

Family owned and operated Dunbar Station is now recruiting a management couple to commence at the end of the 2022 season in preparation for the commencement of 2023. MDH Pty Ltd owned “Dunbar” is located 300km north of Normanton and 400km west of Mareeba on far north Queensland's Cape York Peninsula. Dunbar is comprised of loamy river flats along the Mitchell river, and sandy open forest country to the south. Dunbar typically runs 15,000 Brahman breeders, with the turn off heading south to grow and background on properties around the Cloncurry district. Dunbar is located in the heart of barramundi country.

Responsibilities and skills will include:

- Leading a team of approximately 15 – 20 staff
- Management of the daily operations
- Planning and executing the work program
- Extensive cattle handling and breeder operation experience
- Leadership and people skills a necessity
- Basic mechanical knowledge and experience
- Experience with infrastructure repairs, maintenance and planning
- Computer record keeping
- Quality control and workplace safety oversight
- Ensuring the station complex and gardens are maintained.

We are seeking a couple who are honest, motivated, take pride in both their work and themselves and who want to join a family orientated company.

Package includes a modern, fully air-conditioned and comfortable 4 bedroom homestead with established gardens and facilities. Generous remuneration package on application.
