

General Manager Agriculture

- Provide insight & assist in the commitment of developing the agricultural sector
- Melbourne CBD Corporate Head Office with regional sites
- Initially a fixed term contract with potential to extend

About the company

Established over 60 years ago, this privately run investment business has interests in agriculture, property, and food industries. With a number of vertically integrated businesses, they are strategically focused on developing key assets with a multi-decade view and have a long-term intergenerational commitment to the agricultural sector.

About the role

This position has been created to provide strategic recommendations into their key agricultural assets, ensuring they continue to provide consistent return over the short and long-term business cycles and are aligned with managements long-term vision for the wider company. Reporting to the Board, initially a fixed term contract, there may be potential for this person to stay on and play a key leadership role.

Duties

- Take a strategic view across two key assets in their agricultural portfolio, providing a multi decade blueprint
- Conduct farm acquisition and divestment modelling – allowing informed decision making by the management & the Board
- Provide guidance to the existing management team, ensuring key business decisions & the operational objectives align with the strategic plan
- Liaise with Consultants, Agronomists & Farm management

Skills & experience

- Experience with strategic assessment modelling of agricultural operations & verticals
- Demonstrable exposure to operational performance & key drivers of agricultural & farming assets
- Experience dealing range of stakeholders such as banks & investment houses purely focused on financial returns
- Ability to articulate & document findings & recommendations to the Board, allowing for informed decision making

Benefits

- The business recognises a requirement to introduce external support, allowing them to continue with their desire to improve & leave assets in a better place than when originally acquired
- Initially a fixed term contract, the opportunity does present itself for someone to continue to partner with the business in a leadership capacity
