

**Cattle Farm
Manager Required**

The Murray River Farm, a privately owned business, requires a Farm Manager with experience in all aspects of beef cattle farming to independently manage a 3,500 acre property in Waroona, WA. The property runs ~600 angus breeders.

The suitable candidate will be confident at managing a property of this size with significant experience in:

- Animal husbandry including animal health, vaccinating, drenching, tagging, calf marking.
- Management of on property breeding and young cattle
- Research and purchasing stock etc.
- Co-ordinating transport & logistics
- Managing the agronomy, land and water control measures of the property
- Seeding oats and pastures for silage and hay
- Renovating paddocks with pastures
- Making hay and silage (approx. 2500 rolls)
- Spraying and general weed management
- Applying seasonal fertilising
- Fencing repairs and maintenance (including electrical)
- Develop and maintain fire prevention management programs.
- Mechanical diagnostics and repairs
- General farm labour & maintenance
- Maintain perimeter security against trespassers

You will be actively involved with the management and operations of the enterprise, including management of 6 staff, maintenance of OH&S and responsible for annual budgeting and income/cost management.

Long time farm manager retiring and will be available to assist during the handover. We seek a flexible transition period in Feb/March 2023.

Attractive salary with performance incentives. On farm accommodation and farm equipment is provided.

Please email CV and cover letter addressing qualifications to info@murrayriverfarm.com.au

Only short-listed candidates will be contacted. Job closes Friday 18th November.
