

BUSH RECRUITMENT.com.au

STATION MANAGER

ALPHA, QLD

Bush Recruitment is recruiting a Station Manager for a cattle station in the Alpha area.

In this role you will be managing a self-replacing herd of approximately 6,500 breeders. The successful applicants will need to be computer savvy and able to use the computer program "Stockbook". All breeding records are recorded with the bulls used in controlled joining.

Experience with cattle breeding, herd management and general station duties is needed.

This position is suitable for a working couple.

All houses are air conditioned, and the main house is a 4-bedroom homestead with extensive gardens. All houses are connected to rainwater, the balance of the water for utilities and the extensive lawn areas comes from a large house dam.

To apply for this position –
