

*****WORKING STATION MANAGER – NW QLD*****

- Exceptional long-term opportunity to settle and grow with a business long term
- \$70-100k package on offer
- Accommodation and work vehicle provided

Avery Agriculture is a family owned, purebred Wagyu breeding operation seeking a **Working Station Manager** to run the weaning and background operation (approx 2000hd) based near McKinlay (SE Cloncurry) in NW QLD. The property is currently undergoing major redevelopment. Modern infrastructure and plant.

This role is an exciting opportunity to work with a growing business and further develop the property, homestead and surrounding compound. The successful applicant/s will be solely responsible for the daily station operations; livestock, development and maintaining the station presentation. Additional processing of agistment stock and core breeding herd around the area.

Avery Agriculture is seeking candidates with all-round experience; livestock, machinery, fencing, water and general property maintenance. Applicants must demonstrate an understanding of animal welfare practices and proven experience in a similar role.

This is a standout opportunity for the right individual or couple with private accommodation. In addition to an attractive remuneration package the successful candidate will have the opportunity to develop a career and take on additional role expansion responsibilities across various assets within the business.

If you think you have got what it takes to be successful in this role, send your resume to: info@hrology.com.au
