

Financial Controller

Gunn Agri Partners (GAP) was established in 2013 and provides agricultural investment and farm management services for some of the world's largest pension funds and impact investors. GAP manages \$700m of assets and commitments managed by the following platforms:

- **Gunn Agri Cattle Fund** incorporating **Cunningham Cattle Co** investing in northern cattle production.
- **Wollemi Farms**, investing in permanent crop assets for lease.
- **Transforming Farming** incorporating **Faulkner Farming** investing in cropping and livestock farms and developing natural assets such as carbon sequestration and biodiversity.
- **Wilga Farming** investing in cropping and livestock farms with a focus on carbon sequestration and biodiversity.

The Financial Controller will report to the CFO and oversee / contribute to the full finance function for designated platforms. Some of the key responsibilities of this role will include:

- Manage a small team.
- Drive and contribute to the production of month end reporting within required timeframes.
- Oversee the AP/AR process to ensure it is run in a timely and efficient manner, whilst adhering to payment policies.
- Work with General Managers to prepare annual Budgets and update quarterly forecasts, including associated investor / board reporting.
- Manage external debt facilities and banking relationships.
- Manage and monitor cash management.
- Maintain and improve platform financial models.
- Ensure compliance with all legal and regulatory requirements.
- Act as the key interface with external auditors and ensure the annual IFRS statutory accounting process is completed on time.

The Requirements

The Financial Controller will be an ambitious and motivated individual who strives on meeting those deadlines, with the ability to work as part of a team to achieve results with and through others. They will have a proven ability to build and maintain strong internal and external relationships and have had extensive experience in financial control within medium to large companies. A sound knowledge and understanding of IFRS accounting and reporting requirements, and the application of standards to practical situations. A proven ability to analyse data and interpret results in a hands-on environment is a must.

Candidates will be degree and CA/CPA qualified with 8-10 years post qualified experience. Strong analytical skills and previous experience with SAP B1 is desirable. A strong interest and/or understanding of the agricultural sector will be highly regarded.

On offer is an exciting opportunity to join a leading agricultural funds management business in a strong growth phase.
