

**Carpenter Beef** is located 1.5 hours north of Perth in Cataby, Western Australia.

An exciting opportunity has become available for a highly dedicated and experienced **Feedlot Manager** to join our team **and be part of a growing National Agribusiness.**

The Feedlot Manager is responsible for all aspects of Carpenter Beef's 10,000 scu grain-based Backgrounding facility, will lead hands on and take ownership and accountability across the operation with the support of their dedicated Feedlot personnel. We are seeking candidates who have proven experience working in busy feedlot environments, have outstanding people management skills with the expertise and experience to grow the existing operation, whilst ensuring profitability and long-term success.

**Duties include:**

- Management of daily feeding program
- Ensure cattle health and welfare whilst maximising cattle performance
- Milling and manufacture of feedlot rations
- Commodity management, ordering and scheduling of commodity deliveries
- Manage procurement and inventory of all Feedlot related items
- Maintain all feedlot administration, data and records accurately
- Administer and maintain feedlot software system
- Ensure feedlot hygiene and pen maintenance is to the highest standard across the facility
- Ensure Maintenance schedules are being maintained
- Manage appropriate staffing levels & staff rostering
- Continually drive operational and team efficiency
- Mentor, train and support dedicated feedlot personnel
- Oversee Feedlot Capex projects and upgrades
- Ensure company Policies & SOP's are being adhered to across the feedlot operation at all times
- Ensure OH&S/WHs policies and procedures are adhered to across the feedlot operation at all times

**The successful applicant will have:**

- Ability to demonstrate experience in all aspects of cattle feedlot operations
- High level of communication and people management skills
- An appreciation for compliance

- Effective problem solving skills
- Ability to prioritise tasks
- A positive can-do attitude with the ability to motivate a team positively
- Sound mechanical knowledge of feedlot related infrastructure and machinery
- Demonstrate Leadership and ensure quality results are always being delivered
- Have sound computer literacy skills with the ability to utilise microsoft office suite applications
- Have experience administering BMS feedlot management system or similar
- Sound understanding of workplace OH&S requirements

**You will be offered:**

- A Full-Time position with an attractive remuneration package (commensurate to experience)
- Accommodation onsite with all utilities
- Company Vehicle and Phone allowance
- Opportunity to work for a growing National Agribusiness
- Annual bonus and incentives offered
- Training and career development opportunities
