

General Manager - Cattle Grazing Farms

About Us:

Be part of a privately-owned cattle breeding organisation as the General Manager of our 10,000-plus hectare beef grazing properties. We focus heavily on low-stress stock handling and grazing efficiency.

Location:

Our main property covers 10, 000-plus hectares on the coast, 30km east of Rockhampton and 31km south of Yeppoon, giving access to health facilities, schools and shops. The General Manager will be based at Keppel Sands and will control all our operations at Keppel Sands and other locations.

The Role:

We are offering an exciting opportunity for an experienced or aspiring cattle property manager to lead operations. As a pivotal part of our team, you will be responsible for optimizing the property's potential while ensuring a safe and positive workplace. Your leadership will play a crucial role in the property's ongoing success.

Key Responsibilities:

- Oversee all aspects of cattle breeding and husbandry programs
- Drive property, pasture, and infrastructure development
- Manage machinery operations and maintenance
- Provide mentorship, training, and direction to station staff and contractors
- Foster a culture of safety, respect, and personal growth
- Maintain accreditation, administration, and records

Qualifications and Skills:

- Previous hands-on experience in breeding and cattle grazing operations
- Proficiency in cattle husbandry techniques
- Demonstrated expertise in cattle handling using horses and dogs
- ChemCert accreditation
- Strong people management skills with a passion for team development
- Enthusiasm to implement new ideas
- Sound project management and property development abilities
- Basic computing and reporting proficiency

What We Offer:

Join our team now and in return for your expertise and dedication, we offer an attractive salary package along with comfortable accommodation in a beautiful beachside location.
