

Agricultural Analyst

Multiple positions

Location flexible

Full time

The Company

AGRIFUNDER provides finishing finance for the livestock industry. However, we also recognise working capital is an industry wide issue for agriculture and our vision is to be a leader in developing exceptional working capital solutions across the agricultural industry. AGRIFUNDER's greatest asset is its people. It is committed to providing flexibility and training to ensure the very best outcomes for our team members and clients alike.

The Opportunity

We have multiple opportunities for motivated and capable individuals to join our dynamic team. Locations are flexible and our technology enables our workforce to work remotely from any location. Ideally the positions require experience in agribusiness and / or financial services. An understanding of the livestock industry would be advantageous.

The successful candidate will work closely with AGRIFUNDER team members providing analysis and administration to support decisions on business opportunities and existing clients. Additionally, the opportunity to work on new product development amongst other tasks will provide variability and growth opportunities.

The Responsibilities

AGRIFUNDER considers the Analyst roles as an important part of their team. The roles:

- Undertake reviews and conduct analysis that support day to day business decisions
- Supporting Account Managers in their activities supporting existing and facilitating new clients. This experience is critical as inevitably this is the likely development pathway for our analysts as our business continues to grow.
- Build strong relationships with internal and external stakeholders
- Undertake various reporting activities, both internal and external
- Provide regular, positive and proactive input towards the development of the AGRIFUNDER business, across processes, policies, procedures and platforms

The successful candidate

The successful candidate is likely to have:

- Strong communication and interpersonal skills
- Experience in the Australian agribusiness and / or livestock industry
- Sound level of financial and business literacy
- A willingness to learn and be part of a proactive and dynamic team
- Be self motivated and have an ability to work remotely
- A bachelor's degree in Business, Agribusiness, Finance or Accounting would be advantageous, but not a pre-requisite

Location

We are seeking multiple roles and locations are completely flexible. AGRIFUNDER clients are spread far and wide so it makes sense our team can be located anywhere that enables them to contribute positively to our team and clients experience.
