

Farming Operations Manager QLD

Our client, a global leader in the cattle and beef supply chain and a distinguished family-owned organisation, is seeking an enterprising Farming Operations Manager. This role will oversee a 4,000-hectare cropping operation on a 16,000-hectare grazing and broad-acre farming enterprise on the Darling Downs QLD, with ambitious expansion plans. It presents a unique opportunity to collaborate with a forward-thinking organisation that values a great work environment and recognises the potential for growth in individuals who aspire to advance. Reporting to the Senior Manager of Farming, your core responsibilities will include:

Operational Leadership:

- Strategically plan, coordinate, and supervise all farming operations to achieve optimal production results.
- Collaborate with the Senior Manager of Farming on long-term planning, budgeting, and strategic development.
- Ensure the safe and efficient utilisation of modern farming equipment.
- Supervise the receiving, application, handling, and storage of chemicals.
- Monitor seasonal and weather conditions to make informed recommendations.
- Manage inventory related to all farming operations, including budgeting and procurement.
- Implement and oversee repair and maintenance, with the assistance of a skilled mechanic.
- Harness technology and systems to enhance operational efficiency.
- Accurately record and analyse data pertaining to farming activities to inform decision-making.
- Manage property and grounds maintenance, as well as the organisation of homestead activities.

Team Empowerment:

- Provide coaching, training, guidance, and constructive feedback.
- Champion safety and well-being by maintaining a safe work environment and upholding WHS standards.
- Promote ethical conduct and teamwork while leading responsibly.

Skills required:

- Demonstrated experience in farming with a strong desire for professional growth.
- Proficiency in leadership and team development. (or a willingness to step into this space)
- Organisational and time management skills.
- Attention to detail with effective communication capabilities.
- Adeptness in learning and adapting to evolving technology.
- Competence in budget management and resource allocation. (and/or willingness to learn).
- A steadfast commitment to the highest standards of quality.

- Relevant qualifications in agriculture or related fields (a plus).
- If you are prepared to elevate your farming career to new heights and contribute to our client's journey of diversification and growth, this role offers an attractive salary package, including a fully maintained vehicle, a three bedroom well maintained house and internal company benefits.
