

Maintenance Supervisor

B Feeders is a privately-owned Company specialising in lot feeding and backgrounding of beef cattle, located 25km west of Warwick QLD.

A Key position in the team has become available for a maintenance Supervisor, to help keep the wheels turning. We operate a full range of different machines and are looking for an experienced mechanic and or all-rounder who can prioritise, identify and fix the day-to-day breakdowns. You will get your hands dirty with feedlot machinery operation, maintenance & repairs as well as some mill work, welding and even water reticulation control.

Ideally, we just want someone to turn up, work with purpose and communicate well with others. Show initiative, solve problems and get things done. The role roster is flexible, and comes with accommodation, a work vehicle and a competitive remuneration based on experience.

For genuine enquiries call Ben on 0400711009 and or please forward a current resume before 12th February 2024 to. Email office@bfeeders.com.au
