

## **Job Title: Lead Stockman - Beef Cattle Tallawanta Feedlot**

**Location: Moree NSW, Australia**

### **Summary**

Are you an experienced stockman seeking a leadership role in the far northern reaches of New South Wales? Here at Providore Global, a globally recognized and multiple award-winning beef producer, we are on the lookout for a skilled Lead Stockman to join our esteemed team. As a pivotal member of our organization, you will not only oversee the daily operations of our beef cattle feedlot but also gain exposure to the broader beef industry.

### **About Providore Global:**

As a leader in the beef production industry, we have garnered global recognition for our commitment to excellence, sustainability, and innovation. Our multiple awards serve as a testament to our dedication to providing high-quality, ethically sourced beef to our discerning customers. Joining our team means becoming part of a company that values expertise, integrity, and a passion for producing top-tier beef products.

### **Opportunities for Growth and Learning:**

In this role, you will have the unique opportunity to broaden your horizons within the beef industry. Our integrated approach offers exposure to various aspects of the beef production cycle, including breeding, rearing, processing, marketing, quality assurance, management, and logistics. You will collaborate with experts in each field, allowing you to gain insights and contribute to the creation of bespoke, value-centric beef solutions tailored to our target markets.

### **Key Responsibilities:**

#### *Livestock Care and Health:*

- Monitor and evaluate the health and well-being of cattle on a daily basis.
- Implement and oversee vaccination programs, parasite control, and other health management practices.
- Identify and respond promptly to signs of illness, injury, or distress in cattle.
- Collaborate with the veterinary team to ensure timely and accurate health assessments and treatments.
- Ensure the company's high standard animal welfare policy is adhered to daily.

### *Feedlot and Cattle Operations:*

- Supervise and lead a team of stockmen and their horses in day-to-day feedlot activities.
- Coordinate the receiving, processing, and shipping of cattle.
- Ensure proper feeding protocols are followed, and monitor feed quality and availability. Implement and maintain record-keeping systems for animal health, inventory, and production data.
- Manage the mustering and wellbeing of paddock and backgrounding cattle

### **Join Our Dynamic Team:**

At Providore Global, we believe in fostering a collaborative and enriching work environment. By joining our team, you will not only contribute to the success of our feedlot operations but also play a key role in shaping the future of our globally renowned beef production company.

### *Requirements:*

- Proven experience in a lead stockman role, preferably in a beef cattle feedlot setting.
- Strong knowledge of livestock management practices and feedlot operations.
- Excellent leadership and communication skills.
- Commitment to high standards of animal welfare and health.
- Ability to work collaboratively.
- Firearms License (Class A and B) – Desirable
- ChemCERT AQF3 - Desirable

### **Compensation and package:**

- Competitive salary and allowances negotiable based on experience.
- Modern 4 bedroom homestead
- Work vehicle.
- Husbandry and space for two horses
- 55km from Moree with school bus run on the same road as the property and homestead
- New hot artesian bore bath close to homestead

If you are passionate about livestock management, committed to excellence, and looking to make a difference in the beef cattle industry, we invite you to apply.
