The key responsibilities will include but not limited to:

- Managing investor relationships and the processes from investor prospecting, engagement, information exchange, investment documentation to onboarding.
- Leading the preparation and development of investor-related communication material including presentations, proposals, due diligence requests and other investor information and material.
- Coordinating and overseeing the analysis of financial data, security holder reporting requirements such as KYC, and research of market and industry trends.
- Preparing timely responses to investor queries and assisting the Managing Director Group in building and maintaining relationships with institutional investors.
- Managing the end-to-end processes for investor events including site visits, annual meetings, and roadshows.
- Undertaking other investor relations activities as required.

The Candidate

To be successful in the role you will need to demonstrate the following:

- Tertiary qualifications in Agriculture, Business Management, Economics, Finance or similar.
- A background in investor relations or capital markets.
- Experience with working in a corporate environment.
- Strong knowledge and understanding of investing, agricultural production, and business processes.
- Proven ability to establish and maintain strong internal and external relationships.
- Exceptional communication, proven influencing, and project management skills.
- Demonstrated problem solving, numerical and commercial skills.

- Expertise in producing quality and impactful internal and external communication material.
- Excellent conceptual and quantitative skills.
- Capability to use business management systems and software.
- Superior time management and prioritization skills, coupled with high level attention to detail.
- High level proficiency in the Microsoft office suite.
- A current driver's licence and ability to undertake travel.
