

GRADUATE PROGRAM

Thomas Foods International Feedlot is a key operation in growing, supplying, and distributing premium meat to the world and forms part of the agricultural division of Thomas Foods International, one of Australia's largest family-owned businesses.

The Feedlot, with a 27,000 standard cattle unit capacity, is located in Tintinara, South Australia, and is a key partner of TFI's Murray Bridge Processing Plant.

The Graduate Program is run over an 18-month period, designed to create a rewarding and successful career within the agricultural industry and establish the necessary skills for career acceleration into a supervisory position at the completion of the program. As well as learning the technical aspects of the business, the graduate will develop effective communication skills which will put them in good stead as a future leader within the business.

Highlights of the program

- Learn from nationally renowned animal nutritionists and veterinarians
- Gain experience in all areas of a large scale, industry leading agribusiness
- Discover the importance of animal welfare and environmental stewardship
- External leadership training requiring interstate travel
- Exposure to Thomas Foods International's industry leading protein supply chain including farming, livestock buying, backgrounding, feeding and processing.

Why is this program for you?

- Structured program designed to create future leaders in the agricultural industry
- High quality external and internal training provided
- Program can be modified to match with the participant's areas of interest and passion
- Ability to fast track your career

What skills and experience do you require?

To be considered for the position, the ideal candidate needs to have recently completed a tertiary degree in Agriculture or a related field along with some exposure to the agricultural sector.

How to apply
