

Farm Manager

- Opportunities, Locations and Owners don't get much better than this!
- Cutting edge - Angus cattle, Regen ag, carbon farming enterprises
- Substantial farming asset in the heart of the Southern Highlands

About the role

As Farm Manager you will work in conjunction with the owners to run and control the day-to-day operations and management of approx. 400 Ha of highly fertile and pristine grazing country at Moss Vale in the heart of the Southern Highlands, NSW. The property runs a commercial Angus enterprise and have established new cutting-edge developments into regenerative agriculture principles and carbon farming initiatives.

This upscale in activity has created the need for a highly-active Working Farm Manager similarly committed to regen ag and carbon initiatives to not only run with them now, but also to run the show for the long-term!

Responsibilities

- Adherence to animal husbandry and WHS best practice
- Animal health, nutrition, stockfeeding and water monitoring
- Operate and maintain all farm plant and equipment (incl. trucks, tractors, spray-rig, excavator)
- Pasture improvement and management
- Input into farm planning, budgeting and staff/contractor management processes as required
- Maintenance of all farm infrastructure; incl. buildings, fences to a high standard

Education / Experience / Skills

- Extensive knowledge and experience in cattle operations, pasture improvement and farm management
- Experience/Knowledge/Training in relevant Regen Ag principles and Carbon Farming initiatives (or commitment to be trained/learn)
- Experience with Farm Management software (e.g. Maia, Agrimaster)
- Excellent communication and people management skills
- Ability to follow instructions, work independently and within a team
- Strong work ethic and exceptional attention to detail
- HR license, firearms license and Chemcert accreditation
