

### **Farm Manager – High Calibre Beef Cattle Property**

- Autonomous management of high calibre beef cattle property
- River flats suitable for cropping, haymaking, and grazing
- Located in Cassilis/Merriwa, Upper Hunter

#### **Role Overview:**

This role allows you to manage a property with 300 Angus/Charolais breeders and followers (4,500 DSE), supported by a professionally managed family business.

Located on over 1,000 Ha in the Upper Hunter with 2.5 km of river frontage, the property has basalt soils and alluvial flats ideal for grazing, cattle fattening, cropping and hay production.

The owners seek a respectful, self-reliant farm manager or overseer to manage this productive grazing holding. You will work independently in consultation with the owners, pushing production boundaries to achieve top industry results.

If you are an enthusiastic stockperson with a keen eye for cattle and want to work with committed owners, this is a great opportunity.

#### **Key Responsibilities:**

- Hands-on management of beef production and animal husbandry
- Regular communication with property owners
- Operation of farm machinery (spraying, paddock prep, planting, spreading, harvesting, haymaking)
- Utilisation of AgriWebb and Farmbot
- Management of stock water, pasture, and chemical applications
- Maintenance of fencing, machinery, and property

#### **Required Skills and Experience:**

- Proven experience in animal husbandry and beef production
- Experience with cropping, fodder and stock water systems
- Competency in farm machinery operation and maintenance
- Strong communication skills and ability to work independently
- Mechanical repair and welding skills
- Own working dogs (essential)
- Licences: Drivers (essential), Truck (desirable), Chemcert (essential)
