

Station Manager: OBAN

Western Grazing is a well-established, Australian, family owned and operated Beef Producing company.

We are seeking an experienced **Station Manager** (couple) to lead our team on Oban Station, a beef cattle property located 90km southwest of Mount Isa. This position would be a great opportunity for a couple who have the passion and experience to work on a cattle property managing the station and its assets. This position is suitable for married/partners.

Covering 261,000 hectares, Oban Station is a fattening block that supplies either the Live Export or domestic feedlot markets. Mustering is done on both horse back and motorbikes.

This is a position for an experienced **Station Manager** (couple) who can demonstrate leadership as well as a high level of communication and organisational skills. This hands-on role is responsible in ensuring all aspects of the station are run efficiently and safely. This position works very closely with the General Manager of Operations.

Key Tasks, Duties and Responsibilities:

- Previous experience livestock and station management
- Proven leadership and communication skills
- Extensive experience in cattle, pasture and water management
- Excellent cattle handling, motorbike and horse-riding skills
- Practical knowledge of solar bores, fencing, machinery operation and general station maintenance.
- Good business and budget analysis with computer skills

Job Requirements

- Proven ability to lead, plan, and coordinate across multiple work areas
- Confident managing people, resources, WH&S and timelines
- Must hold MC licence
- Firearms Licence

Job Benefits:

- Comfortable air-conditioned family home with electricity and beef supplied.
- Attractive remuneration based on experience.

Please send applications with cover letter and two recent references to recruitment@westerngrazing.com.au
