

Feed Mill Manager – Wonga Plains Feedlot

Camm Agricultural Group is seeking a reliable and motivated full-time Feed Mill Manager to join our Wonga Plains Feedlot Operations team.

This role will lead the safe and efficient operation of the Wonga Plains Feed Mill, ensuring high-quality feed production, commodity management, feed delivery, and team performance.

Reporting to the Asset Manager, this role will oversee daily feedmill operations, inventory control, feed quality, maintenance coordination, and continuous improvement initiatives.

A key feature of this position is the opportunity to play a leading role in the planned redevelopment of the Wonga Plains Feedlot and feed manufacturing infrastructure. The successful candidate will contribute to the commissioning, and optimisation of significant capital improvements, helping shape the future of one of Queensland's leading integrated feeding operations. The development will centre around all new grain processing and handling equipment including the first Flake boss mills to be installed in the Southern Hemisphere, as well as a 6MW boiler, and grain storage. Following this investment a planned second stationary mixer system is to be installed.

Key Responsibilities

- Lead daily feedmill and feed delivery operations.
- Ensure feed quality, ration accuracy, and production efficiency.
- Manage commodity receipt, storage, inventory, and stock control.
- Supervise, mentor, and develop feedmill team members.
- Coordinate maintenance programs and equipment performance improvements.
- Support capital projects, commissioning, and operational upgrades.
- Build strong relationships with suppliers, contractors, and internal stakeholders.

About You

A proactive leader with strong operational and people management skills, experience in feed manufacturing, agriculture, livestock, or related industries, and a passion for driving performance, quality, and continuous improvement.

This is an exciting opportunity to play a leading role in the future growth and development of one of Queensland's premier integrated feeding operations.

For any enquiries, please contact our Asset Manager on 0400 316 199 or apply now with your cover letter & resume to jobs@cammgroup.com.au
