- Lead daily operations to meet production schedules, volume targets and customer orders.
- Optimise yield, raw material usage and trim to minimise waste and product give-away.
- Manage labour, workforce planning, rostering, performance and team development.
- Ensure product consistently meets customer specifications for weight, trim and quality.
- Maintain strict compliance with HACCP, SQF, PrimeSafe and Department of Agriculture export requirements.
- Drive WHS performance and a strong, proactive safety culture.
- Monitor budgets, operating costs and opportunities for improvement.
- Analyse production, safety, quality and workforce data and report outcomes to senior management.

THE REQUIREMENTS

- 5+ years' experience in high-volume meat processing, including further processing experience.
- Demonstrated leadership or management experience.
- Proven success managing productivity, yield, quality, food safety and WHS outcomes.
- Experience driving operational improvement and efficiency.
- Strong workforce planning, performance management and people development skills.
- Certificate IV or Diploma in Meat Processing, Production Management, Operations Management, Engineering or a related field.
- HACCP and Food Safety training/certification.
- Lean Manufacturing training will be highly regarded.

LOCATION AND REMUNERATION

Work in Tongala VIC, a welcoming regional Victorian community offering a more relaxed lifestyle, affordable living and easy access to Shepparton and Melbourne. Attractive remuneration package, tailored to your experience and capability.
